CONDOMINIUM IBIZA

7

Ibiza, the magical island in the Mediterranean.

Ibiza has a special energy that sets it apart. It is something you have to experience to understand and once you feel it, it stays with you forever. Perhaps it is because it has everything.

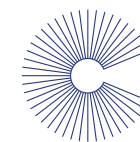

IBIZA

Let yourself be amazed by San Antonio Bay.

Known for offering the most spectacular sunsets on the island, and booming with urban regeneration that is raising the profile of the entire real estate and hotel sector, San Antonio Bay is repositioning itself as a leading player on the Ibiza scene, attracting both tourists and locals to enjoy its beaches, port, and vibrant nightlife.

Condominium Ibiza is located in a quiet and privileged area, very close to the island's best coves and with easy access to the centre of San Antonio and the main road that connects with Ibiza. With its strategic location, in addition to its beauty and architectural quality, it is clearly an exceptional opportunity.

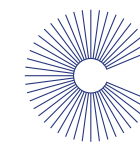

A dream come true.

Condominium Ibiza is located in an idyllic enclave on a stretch of land that plunges into the turquoise waters of the Ibiza coast, bestowing all the apartments with fabulous views of the sea.

Fusing the spirit of the Mediterranean with a tropical and exotic touch, it has large common areas and gardens with palm trees, a communal swimming pool with a sun lounge area surrounded by lovely vegetation that affords greater privacy to the area, a fully-equipped gym and direct access to the sea through the wooden walkways that connect to the beach, located a few metres from the apartments. The condominium also has a concierge service and security cameras.

COMMON AREAS

Maximum comfort for all.

The building is composed of 64 homes of similar size that have almost the same area and distribution. All of them have a spacious living room, open kitchen, semicircular terrace measuring more than 15 m², and three bedrooms, the master bedroom having an en suite bathroom and sea views.

All the homes boast parking, ducted central air conditioning, and home automation compatibility. The kitchens are equipped with Bosch appliances and osmosis equipment. The complete bathrooms include a thermostatic hydromassage column.

Details that make the difference.

In addition to the features already mentioned, the lower floors have a large garden or terrace with sea views that vary in size between 50 m² and 300 m², while the penthouses have private rooftops measuring 105 m². Consequently, there is a sub-division of types: lower, middle and penthouse. Which will you choose?

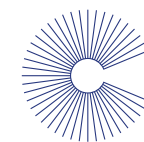

When everything
is in harmony,
you can feel it.

In clear tones and with textures and materials
that evoke nature, each detail invites in light and
a feeling of relaxation as deep as the reflection of
the sea on the horizon.

With refined features such as eucalyptus, oak and ash, materials that remind us that beauty lies in the simplest things in life, forming weaves that tell a story. Contemporary and chic, Condominium's interior design stands out for its appeal to all the senses, creating a perfect balance in every environment.
